

Configure a Contactor or Starter

The Contactor and Starters takeoff has been redesigned for ease of use. Start with Type and work each field from Top to bottom.

System Options
Basic Characteristics

Type
Contactor

Device Type
Non-Reversing

Number of Poles
2-Poles

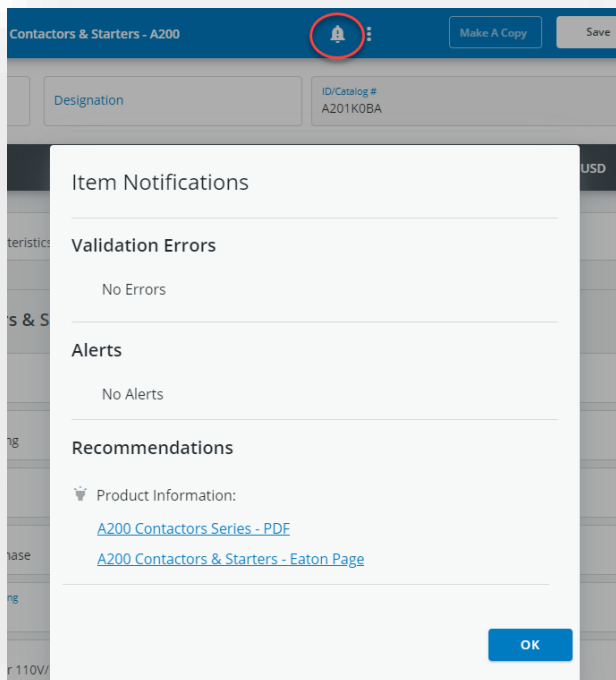

Supply Voltage
240V AC 3-Phase

Horsepower Rating
50 hp

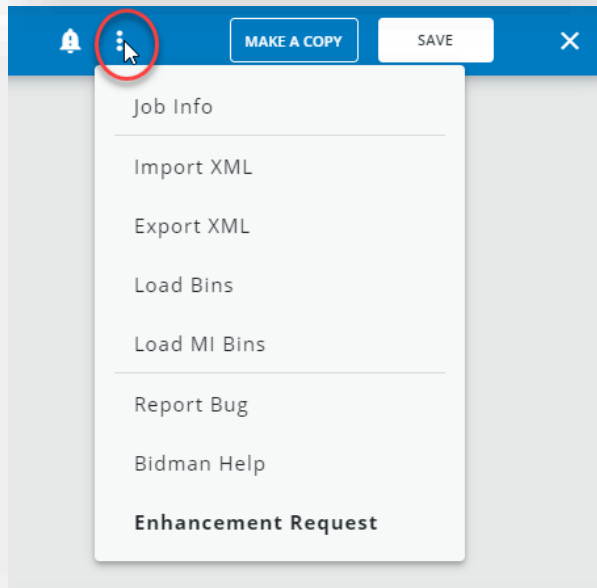

Coil Voltage
240V/60Hz

Pricing appears at the top of the configuration. A pop up with more information, including catalog number is available by clicking the **numbered list** icon.

Lead Time: N/A Price: \$833.49 USD				
System Options Basic Characteristics				
Price Sheet				
Quantit	Description	Catalog Number	Unit List Price	Lead Time
1	A201 - CONTACTOR, SIZE 0, OPEN, 2 POLE, 120V / 60H	A201K0BA	\$833.49	N/A
TOTAL			\$833.49	

When you click **Bell icon** or when you save your configuration, the system will check for Validation Errors and Alerts and will display the Technical Data Sheet for Contactors and Starters.

The Overflow menu icon (three dots) has useful but less frequently used functions that may vary based on your role.

On the top left, you can also **Make a Copy** and **Save** your item to a list of jobs in Bid Manager. The Make a copy button allows you to save multiple line items to your bill of material with different designations. It is similar to the former **Save As** button.
